

Green Audit / Environmental Inspection

CIL Ref. No.:	CIL/20232416
Name of organization:	Kashi Institute of Pharmacy
Address of premises:	Mirzamurad, Varanasi Prayagraj Road, Varanasi Uttar Pradesh
Name of Inspector:	Ashutosh Tiwari
Date of Inspection:	21-10-2023
Type of Inspection:	Green Audit

Organization Details	
Total Campus Area	2 Acre
Total Built-up Area	5338 sq. meter
Covered Parking	NA
Total Air-Conditioned Area	600 sq. meter
Non-Airconditioned Area	XXXXX
Cross Floor Area	XXXXX
Forest / Planted Area	2700 Sq. meter
Age of the building	14 Years

DETAILS OF INFRASTRUCTURE

Classrooms	08 (600 Sq. meter)
Laboratory	12(900 sq. meter)
Library	01 (150 Sq. meter)
Seminar hall and auditorium	01(300 Sq. meter)
Sports room	01
Gymnasium	01
Staff and student parking area	01
Canteen	01(400 Sq. meter)
Playground	01
Green Area / Plantation	2700 Sq. meter

LIST OF BUILDINGS

Green Audit / Environmental Inspection

Name of Building	Number of Floors	Area (m2)
KIP Block	4	5338 Sq. meter

DEPARTMENTS

1	Bachelors in pharmacy
2	Diploma in Pharmacy

DETAILS OF STUDENTS AND STAFF

Total Number of Students	491 (M-390, F-101)
Teaching Staff	31
Technical Staff	5
Non-Technical Staff	7
Outsourced Staff	4

GREEN AUDIT PARTICIPANTS

Name	Designation
Dr. Ashutosh Mishra	Director
Dr. Vivek Keshri	Head of the Department
Mr. Deepak Kumar	Assistant Professor
Mr. Anurag Vishwakarma	Lab. Assistant
Mr. Anil Maurya	Lab. Assistant
Mr. Shakti Chand	Lab. Assistant
Mr. Shashi Bhusan Tripathi	Lab. Assistant
Mr. Kumar Alok	Assistant Professor

About Organization
<p>Kashi Institute of Pharmacy (KIP) got its existence in 2009 with the vibrant vision of Jain Education Society to give an outstanding ambience of technical education in the entire Uttar Pradesh and especially in Purvanchal, it is approved by Pharmacy Council of India (PCI) and is affiliated to Dr. A.P.J. Abdul Kalam Technical University (AKTU) Lucknow</p>

Green Audit / Environmental Inspection

(formerly U.P.T.U Lucknow)

KIP is maintaining its leading position amongst all private Pharmacy Institutes in Eastern Uttar Pradesh. It is run by a team of visionary and motivated IIT Alumni with the strong dedication to provide best technical education and world class qualitative environment to the students of Uttar Pradesh.

Kashi Institute of Pharmacy (KIP) is one of the topmost Pharmacy colleges in Varanasi providing technical education in B. Pharm & D. Pharm at graduation level.

GEOGRAPHICAL LOCATION WITH CAMPUS MAP IN SCALE

LAND USE DATA

Categories of Land Use	Area (M2)
PLANTATION AREA	2700 Sq. meter
BUILT UP AREA (INCLUDE ROADS)	5338 Sq. meter
TOTAL AREA	5093 Sq. meter

CLIMATIC PARAMETERS

Green Audit / Environmental Inspection

1. **Climate:** Kashi, also known as Varanasi, experiences a humid subtropical climate. It has distinct seasons, with hot summers and cool winters. The city is known for its extreme temperatures and can get very hot in the summer.
2. **Rainfall:** Summers in Varanasi are quite hot, with temperatures often exceeding 40°C (104°F) in May and June. Winters are milder, with temperatures ranging from 5°C to 15°C (41°F to 59°F) from December to February.
3. **Temperature:** Kashi receives most of its rainfall during the monsoon season, which typically lasts from June to September. The annual rainfall in Varanasi is approximately 1,100 mm (43 inches), with most of it occurring during these months. The rest of the year experiences relatively low rainfall.

GENERAL

Green Audit / Environmental Inspection

General Requirements: Environmental Policies / Environmental Objectives, etc.	
Is there an environmental policy? Is it publicly communicated?	Yes, there is written environmental policy developed by the institute. The organization creates awareness among students, and staff regarding the efficient utilization of available resources, and environment-conscious programs surrounding people also many seminars, workshops awareness programs are being conducted for the same. Reference doc/pic no.- A1
Is there a defined waste management policy in the organization?	No, there is no defined waste management policy in the organization.
Are there any quantifiable environmental objectives decided by the organization?	There are no defined quantifiable environmental objectives decided by organization.
Is the organization aware of all environmental Laws pertaining to different aspects of the organization's activities? Mention laws & compliance status.	There is no evident document/record that ensures that the organization is aware of all environmental laws concern to different aspect of the organization's activities.
Does the organization have any Recognition/certification for the environment friendliness? Provide details.	No, there is no documented or recorded evidence of any recognition or certification for environmental friendliness within the organization.
Has the organization established any committee to decide, implement & monitor environmental initiatives?	Yes, the organization have green committee to decide, implement & monitor environmental initiatives. Institution have conducted plantation drive and celebrate environment day to spread awareness among staff and student. Reference doc/pic no.: - A4, A9, A10 (see below)
Has the institution ever received any notice/warning from the pollution control board or any other concerned environmental authorities? If yes, then what corrective & preventive measures have been taken?	No, the institution never received any notice or warning from the pollution control board or any other concerned environmental authorities. Reference doc/pic no.: -A5

Green Audit / Environmental Inspection

INSTITUTIONAL POLICY ON ENVIRONMENT AND GREEN INITIATIVES

The green campus concept offers an excellent opportunity to take the lead in establishing an environmental culture and protect the resources. The Green Campus and Environment Policy will develop existing eco-consciousness and environmental practices that encourage students and staff to take the lead in creating positive change. Kashi Institute of Pharmacy is committed about environmental conservation with its green campus initiative and sustainable pollution free and clean campus.

Major Objectives for Green Campus Policy are:

1. Encouraging facilities on solar panel and plants
2. Green campus initiatives
3. Clean, safe Environment
4. Sustainability
5. Eco-friendly Waste System for the campus
6. Installation of Energy efficient equipment
7. Waste disposal system through Plastic Waste Recycling System
8. Waste Management Practices
9. Logical waste management
10. Eco-waste management
11. Environment friendly Greenhouse activities
12. Green Audit
13. Energy Audit

Objectives of the Policy:

1. To promote and create an ecological system and resources within the campus.
2. To ensure efficient use of environmental resources to meet the needs and aspirations of the present and future generations.
3. To integrate environmental concerns into policies, plans and programs for social development.

Short-term energy efficiency goals & roadmap to achieve those goals.	<p>The institute short-term energy efficiency goals are as follows:</p> <ul style="list-style-type: none"> Solar panel installation 						

Green Audit / Environmental Inspection

	<ul style="list-style-type: none"> • Natural Lights <p>Reference doc/pic no.: -J1</p>
<p>Long-term energy efficiency goals & roadmap to achieve those goals.</p>	<p>Long-term energy efficiency goals include reducing greenhouse gas emissions, utilization of renewable energy, use of energy efficient equipment.</p> <p>However, there is no defined roadmap developed by the organization that will help them achieve these goals.</p> <p>Reference doc/pic no.: - J2</p>
<p>Related records/images</p>	
<p>9. Short-term energy efficiency goals & roadmap to achieve those goals</p> <p>Response:-</p> <p>Goal- Energy efficiency saves money, increases the resilience and reliability of the electric grid, and provides environmental, community, and health benefits.</p> <p>Roadmap:-</p> <p>1. Turn your refrigerator down. Refrigerators account for as much as 13.7% of the total household energy use. To increase energy savings, set your fridge to 37 degree Fahrenheit and your freezer to 3 degree Fahrenheit.</p> <p>2. Use energy-efficient light bulbs. Install energy-saving CFL or LED bulbs in your lighting fixtures to use 25-58 percent less energy, compared to regular incandescent bulbs.</p> <hr style="border: 0.5px solid gray;"/> <p>3. Clean or replace air filters as recommended. The air conditioner and heater are the biggest energy users in institutes, and these appliances have to work even harder with dirty air filters. Write the date of installation on the filter to help you remember when it needs to be replaced.</p>	<p>10. Long-term energy efficiency goals & roadmap to achieve those goals</p> <p>Response-</p> <p>Long Term Goals:-</p> <p>1. Cut in greenhouse gas emissions .</p> <p>2. Increase utilization of energy from renewable.</p> <p>3. Improvement in energy efficiency.</p> <p>Roadmap:-</p> <p>1. Use of 3 star and above ACs, refrigerator.</p> <p>2. Install more solar panel for alternate source of energy.</p> <p>3. Rainwater harvesting.</p>
J1. Short term goal	J2. Long term goal
<p>Observations:</p> <p style="color: red; text-align: center;">1.The organization needs to define a quantifiable road map for long-term and short-term energy efficiency.</p>	

<p>On-Site Energy Generation (Details of renewable energy generation projects on organization’s property for organization’s use)</p>
<p>The institute has total generation capacity of 200 kilo watts which can provide electricity to the institute as well as the grid. Reference doc/pic no: K1</p>

Green Audit / Environmental Inspection

K1. Solar panel

Observations:

1. The maintenance register for the solar energy plant needs to be regularly recorded and updated.

DRINKING WATER

<p>Drinking Water Quality (As per IS 10500: 2012)</p>	<p>No records of drinking water quality test conducted by the institute.</p> <p>Water pH level is measure by CDG inspection at the time of audit. The pH of the water measured during the inspection is 6.7 which is safe for use.</p> <p>Reference pic/doc no. L1</p>
<p>Related records / images</p>	

Green Audit / Environmental Inspection

L1. pH test

Observations:

1. It is recommended that the institute should conduct water test from an NABL accredited laboratory.

WASTE MANAGEMENT

Type of waste - Plastic waste

Approximate annual quantity- No record found at the time of audit.

Source of waste – Plastic bottle, Medicine, Plastic cap.

Handling methods: No record found at the time of audit.

Measures to reduce the waste quantity- No record found at the time of audit.

Type of waste – Paper waste

Approximate annual quantity- 3780 kg per annum (as per the data provide by the institute)

Source of waste – Books, exams sheets, assignment, notepads etc.

Handling methods- No record found at the time of audit.

Measures to reduce the waste quantity- Emphasis on the online/electronic communication, ERP system, reuse and recycle of paper.

Type of waste – Electronic waste

Approximate annual quantity- 540 kg per annum (as per the data provided by the institute)

Green Audit / Environmental Inspection

Source of waste – Computer, Mouse, Keyboard.

Handling methods- No record found at the time of audit.

Measures to reduce the waste quantity- Electronic waste is employed in certain educational projects carried out by students.

Type of waste – Hazardous waste

Approximate annual quantity- No record found at the time of audit.

Source of waste – No record found at the time of audit.

Handling methods- No record found at the time of audit.

Measures to reduce the waste quantity- NA

Type of waste – Garden waste

Approximate annual quantity- 3360 Kg per annum (as per the data provided by the institute)

Source of waste – Tree/Plants

Handling methods- The disposal of tree or plant waste is managed through methods such as burial or burn.

Measures to reduce the waste quantity- Decomposed and use as a natural fertilizer for plant

Type of waste – Food waste

Approximate annual quantity- 3840 Kg per annum (as per the data provided by the institute)

Source of waste – Canteen mess

Handling methods- Reused for animal feeds/ sell to the vender

Measures to reduce the waste quantity-

- Institute has taken initiative to improve food quality.
- The institute conducts awareness programs for both students and staff to promote food

Green Audit / Environmental Inspection

conservation.

Observations:

1. There are no records found for hazardous waste, Plastic waste, electronics waste management.
2. Plastic waste and E-WASTE should not be mixed with other municipal waste. Instead, it should be collected separately and handed over to a recycler for proper processing and recycling. By keeping plastic waste segregated, we can enhance the recycling process and minimize environmental impacts.

COMPOSTING PLANT

How much organic waste is generated in a day? What type of organic waste is generated?	7200 kg per annum (as per data provided by the institute)
Details & capacity of compost plan installed in the organization.	Not available
Details of composting method used	Not available
Compost facility maintenance & inspection plan	Not available

Related image:

M1. Compost Pit

Observations:

1. It is recommended to adopt a proper composting method for complete decomposition and can consider installing a composting machine on campus for safe and sustainable

Green Audit / Environmental Inspection

composting.

RAINWATER HARVESTING

Provide details of the rainwater harvesting facility.	In the KIP, rainwater harvesting system has been installed inside the campus. Reference doc/pic no.: - M1, M2
Rainwater harvesting system maintenance plan	The organization has a written procedure for maintenance planning, but there are no written records available.
Related records / images	
	
N1. Rainwater harvesting system	
Observations: <ol style="list-style-type: none"> 1. The organisation does not maintain any record regarding rainwater harvesting maintenance & inspection. 	

Training	
Has the organization provided waste management/handling training to concerned employees. Give details.	No record found at the time of audit.
Has the organization provided training for energy saving?	No record found at the time of audit.
Has the organization conducted training for solid waste management?	No record found at the time of audit.
Has the organization conducted awareness training for water saving?	Yes, the institute has conducted awareness training for water saving. The last solid waste management training was done on 22/3/2023. Reference doc/pic no.: - O1 & O2

Protection of water conservation awareness the program were organized all over the world. ✦ The WWD and UNWGD plan to implement different types of promotion activity and seminar to protect water resources and attempt to provide pollution free potable drinking water to all mankind. However, there are some challenges in properly implementing and conveying the messages to all parts of the globe, especially more remote regions. <p>In charge/Coordinator: Dr. Min Soha Bhatti (Asst. Professor, ITP)</p> <p>Brief description of event: An awareness programme on World Water Day was organized by Kavit Institute of Pharmacy via Poster Presentation. The event includes ITP presentation and Poster Presentation of all students by which they present poster about sources of water and conservation of water. The program was concluded with vote of thanks by Min Soha Bhatti (Asst. Professor, ITP).</p> </div>	
O1. Worlds Water Day	O2. Worlds Water Day
<p>Observations:</p> <p style="color: red;">1. The organization does not maintain any record regarding waste management/handling, energy saving and solid waste management training program.</p>	

Environmental Practices	
Waste recycling	Yes, garden waste is decomposed and used as a fertilizer for plant and tree.
Waste Decomposition	Yes, the institute has placed the waste in an open area pit, but it has not been designed according to the required dimensions.
Rainwater harvesting	Yes, the rainwater harvesting system is installed in the campus.
Environmentally Preferable Purchasing (EPP) or Green Purchasing	The organization use LED bulbs for energy conservation, different color of dustbin for segregation of waste in EPP.
Distinct receptacles for trash and recycling	No records found at the time of audit.
Low-emission transportation	No records found at the time of audit.
maximum use of clean energy	Yes, Organization also have installed solar panel.
Preference to electronics over the paper	Yes, they conduct exams and accept project and assignment submissions through online mode.

Green Audit / Environmental Inspection

Campus garden	Yes, there is a beautiful campus garden that not only provides an aesthetic view of the campus but also helps improve air quality, reduce carbon footprint, and create a habitat for wildlife.

Environmental Initiatives / Green Initiatives
<p>There are various green initiatives taken by the organization: -</p> <ul style="list-style-type: none"> The organization has ban vehicle use inside campuses. The organization is going for the star-rated AC and motor fans. They have started using of the LED bulb instead of the CFL bulb and tube lights. The organization use renewal sources over non-renewal sources. The organization maintain greenery for better environment inside the campus.
