Date: 24/7/2023

Annual e-Governance

e-Government refers to the application of information and communication technologies (ICT) in businesses to enhance productivity, support democratic principles, and offer user services. It serves as a platform for the prompt, effective, and transparent provision of services to all parties involved. Transparency and efficiency in an organization's operations are the main goals of e-governance. In order to take advantage of the benefits of contemporary technologies accessible in the field of higher education, the majority of staff and students use smart phones.

The following areas are covered under e-Governance Initiatives-

ADMINISTRATION:

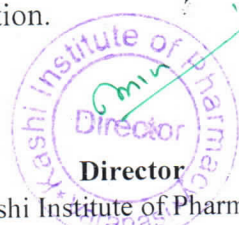

1. Important announcements about administrative matters that affect students and staff are posted on ERP and shared via WhatsApp groups and emails.
2. College has subscription of G-Suite that facilitates teachers and administrative staff to reach students to collect and share information through Google form, Google Sheet, Google Drive.
3. Wi-Fi facility in the campus.
4. **ERP:** The College Administration has been equipped with ERP software used for storing and easy access of particulars of the admitted students.
5. Administrative office staff helps students in filling admission form and scholarship forms on online portal.
6. **CCTV:** Superb surveillance of the college campus, encompassing areas such as hallways, labs, libraries, and canteens, enables the administration to keep a close eye on any disciplinary matters.

Examination: The examination related activities include:

- Facility of Downloading and issuing Hall tickets.
- Payment of examination fees through online.
- Storing and maintaining Exam related data of the college.
- Notification regarding examination rule and regulation time table etc. sent via WhatsApp and institute ERP.

Website: Regularly updates and maintains the website, which is managed by the website administrator.

Library: The library uses ILMS software to automate data administration.
