Closure

I extend my heartiest congratulations and sincere best wishes to the graduating & post graduating class of 2022 on this occasion of the 9th Convocation of Kashi IP. Convocations are always a manifestation of intellectual maturity, proven knowledge levels, and an occasion to celebrate the success of hard work. While celebrating the success of completing the course, you must always keep in mind that in a knowledge driven economy, learning is a continuous part of life style. To my mind, the end of a course-program is the beginning of a challenging set of new learning, where leadership plays a vital role. Learning is eternal and experience is valuable. The fusion of knowledge and experience brings the right wisdom that drives the organization. It is always challenging and enterprising to keep learning new developments.

I often observe during recruitment process that applicants put their conditions before the employer. As a fresher, your first objective should be to prove yourself by getting into an organization. It is the organization which moulds you as per industry requirements of technology and ethics. I put a sentence which goes like this – First deserve and then desire. Every organization wants to boast of about its employee. If you deserve and keeping yourself updated, you need not to switch over for the growth.

Kashi IP has become a modern temple of learning where quality education is more than a philosophy; it is the very essence of its existence. Since all of you had the grooming in the best intellectual environment nurtured by reputed faculty, you can set new performance benchmark when you take up the responsibilities in the industry as part of your professional career. Every alumni of the institute must keep up to the professional and ethical standards of Kashi IP in social life and forge ahead in building enterprise in India.

Dear graduates, I take this opportunity to wish each one of you enterprising and challenging times ahead. As leaders, you should continually strive to usher in a revolution of quality in both professional and social domains. Whatever be your chosen profession, please remember that excellence and integrity should remain your guiding principles.

May your years ahead continue to be characterized by empathy, compassion, objectivity and willingness to take risks! It is people like you who will keep our flag flying high. I earnestly believe that it is you who will light the lamp to usher in the new world that will be joyous, just and caring and guide the destiny of India to the pinnacles of glory for which your parents, all of us, your institute and teachers shall feel proud.

Finally, dear Graduates of 2023, I am confident that you will keep our flag flying high!

Jai Hind!
